

New Gianessi Slideshow as Resource for EPA

On January 23, Leonard presented his new talk on the Importance of Pesticides for Feeding the World at EPA's Office of Pesticide Program's HQ in Arlington, VA. The presentation was set up by Steve Jarboe of the Biological and Economic Analysis Division. In the audience was former CLA staffer, Kristin Rury, who now works for OPP. Following the talk, Leonard's slideshow presentation was put up on OPP's intranet for use by all OPP staff.
