

Gianessi Conducts Two Seminars at WVU

On April 12, Leonard was at West Virginia University in Morgantown, WV where he presented two well-attended seminars for students and faculty. The first seminar covered the *Importance of Herbicides for Sustainable Agriculture* and was part of the graduate student seminar series in Resource Management. The second seminar focused on the topic of *Feeding the World* and was for students and faculty in the Plant and Soil Sciences Department. Leonard's visit was organized by Jerry Fletcher, Director of WVU's Division of Resource Management and Professor Rakesh Chandron who also serves as IPM Coordinator and Extension Weed Specialist for West Virginia.
