

## Gianessi Featured in ACS Webinar

On February 13, The American Chemical Society (ACS) hosted a one-hour webinar Co-Sponsored by ABC Laboratories with the theme *Pesticides: The Global Need and do Adjuvants Matter?* CropLife Foundation consultant Leonard Gianessi presented a slideshow on *Production of Export Crops Depends on the Worldwide Annual Use of Pesticides* while BASF's Phil Brindle and Jane Stewart addressed the topic *Effects of Adjuvants on Residues in relation to routine residue trial variability*. The webinar was recorded and will be available for viewing and download here: <http://www.agrodiv.org/2012-2013-agro-webinar-series/> This website also lists all of the upcoming ACS AGRO webinars.
