

Foundation Presentation at Cal Poly

On May 20, CropLife Foundation consultant Leonard Gianessi presented his talk on the Importance of Pesticides for Feeding the World at a meeting of the Cal Poly Crops Club at California Polytechnic State University in San Luis Obispo, CA. Leonard's visit was coordinated by the Club's Vice President Kembree Borzini. The Club has a Barbeque Committee who prepared food for the meeting including fifty New York strip steaks. The Committee's motto is "We only know how to cook for 50." Many of the Club's members came up to Leonard and described their internships and summer employment at CLA member companies in California.
